Breathe Journal Club, December 13, 2016

The first *Breathe* Journal Club will take place on Tuesday, December 13, 2016 at 16:00 GMT. The article to be discussed is:

Gonzalez-Bermejo J, Morélot-Panzini C, Tanguy M-L, *et al.* Early diaphragm pacing in patients with amyotrophic lateral sclerosis (RespiStimALS): a randomised controlled triple-blind trial. *Lancet Neurol* 2016; 15: 1217-1227.

along with its accompanying commentary:

Lewis RA. Diaphragmatic pacing in amyotrophic lateral sclerosis. *Lancet Neurol* 2016; 15: 1196-1197.

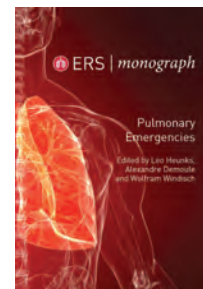

The article will be presented by David Berlowitz (Melbourne, Australia), and the discussion panel will include Jesus Gonzalez-Bermejo (Paris, France) and Richard A. Lewis (Los Angeles, CA, USA).

The discussion will be moderated by Frits Franssen (Horn, the Netherlands) and *Breathe* Chief Editor, Renata L. Riha (Edinburgh, UK).

Places are limited. To register for the journal club, go to <https://goo.gl/forms/RsZaDkIMRCUeAcTe2>

ERS Monograph 74: Pulmonary Emergencies **Edited by Leo Heunks, Alexandre Demoule and Wolfram Windisch**

This *Monograph*, written by well recognised experts in the field, provides a comprehensive overview of pulmonary emergencies. A broad range of different respiratory emergencies is covered, from pneumothorax, pulmonary embolism, right heart failure and haemothorax to acute exacerbations of diseases such as asthma and chronic obstructive pulmonary disease. Recent developments in treatment strategies for acute pulmonary problems are also discussed in detail, with chapters on topics such as high-flow nasal cannula oxygen therapy, extracorporeal carbon dioxide removal and noninvasive ventilation.

The *ERJ* and *ERR* are moving to continuous publication

From January 2017, the publishing models of the *European Respiratory Journal (ERJ)* and *European Respiratory Review (ERR)* will be changing. Rather than publishing conventional complete online issues at fixed intervals, the journals will be moving to a continuous publication model. The central aspect of the new publishing model is that articles can be published online in their final form, with their final citation details, as soon as they have been copyedited, typeset and proofread. Articles will be added in small, regular batches to the current “open” issue of the journal, which will grow over time until it is “closed” and replaced by a new open issue. In the case of the *ERJ*, new issues will be opened monthly; in the case of the *ERR*, this will happen every 3 months. Tables of contents will continue to be organised thematically, rather than being ordered by the date articles are published.

For more information, go to <http://erj.ersjournals.com/journal/continuous-publication>

A wide range of ERS books, including the ERS Monographs, ERS Handbooks and European Lung White Book, are available online at www.ersbookshop.com and www.erspublications.com
